

Managing an import/export compliance operation is complicated, and having to do more with less is a never ending struggle. Companies continually strive to achieve greater accuracy, consistency, cost savings and productivity, and at Zisser, making compliance easier and simpler is our primary goal.

### Why Masters Method?

The compliance experts at Zisser are here to help and have developed unique methods and processes which simplify many of your most important import compliance functions. These methods are

### High Value Training

simple to use and easy to apply. At a Masters Method webinar we deliver actual take home methods and procedures that bring immediate results.

### Unparalleled Results

[Click Here](#) to see what many of the nations leading importers and brokers have already discovered when they attended one of our live Masters Method HTS Classification Training events. Over the next 12 months we will present a variety of

Tuesday  
October  
27th  
11:AM  
PDT

You are invited to our first Masters Method Webinar.

In this session our C-TPAT experts who have assisted in over 300 C-TPAT validations and re-validations will teach you *the five core steps to an effective and successful C-*

*TPAT validation (see below).*

We will also share the latest and ever changing expectations from CBP Supply Chain Security Specialists. The webinar will cover pre validation strategies, CBP communications, validation

preparation, the validation visit and responding to the validation report.

Access the live webinar on the Internet, from your office, your home, etc.
